

When a placement is in crisis, we put a Registered Mental Health Nurse on site fast, so a child stays where they are rather than being moved.

Day Webster supplies RMNs, RNLDs and CAMHS experienced clinicians into Ofsted registered children's homes and complex care settings, working alongside your own team.

We are a **specialist clinical supplier, not a general staffing agency**. We do not supply support workers or care assistants. We supply the clinical layer, mental health and learning disability nurses and CAMHS experienced practitioners, for the moments a placement needs more than its own team can safely provide and the usual agencies cannot cover it. Both **ICBs and local authorities** have commissioned and paid us directly to provide this support into Ofsted registered children's homes.

45 min

RMN on site for a recent emergency a home could not cover

366 hrs/wk

crisis RMN cover we are supplying in the Stoke area right now

8,000+ hrs

per week of MH nursing across NHS Mental Health Trusts

Tier 1

NHS framework nursing supplier, around a tenth of the NHS nursing agency market

What we provide

- **Registered Mental Health Nurses** for acute risk, self harm and dysregulated presentations.
- **Learning disability nurses (RNLD)** where complex needs require them.
- **CAMHS experienced clinicians** for children and young people.
- **Mental health lead consultants** advising on de escalation during dysregulation.
- **Named, consistent teams** on a fixed rota, 24/7, at the ratio required.

Why we are a safe pair of hands

Day Webster is an established NHS framework nursing supplier. Our Director is also Nominated Individual for our CQC registered sister company, Home Care Providers Ltd, so our leadership works to CQC standards daily and understands governance, safeguarding and positive outcomes from the inside.

Every clinician arrives with a **full fitness pack** for your records: enhanced DBS, references, ID, right to work, employment history with gaps explained, NMC PIN and training. We reduce your Regulation 32 exposure, not add to it.

The point of difference. A placement in crisis rarely has a headcount problem. It has a clinical capability problem, and sending more general staff into a clinical situation raises the risk. We send the clinician the situation actually needs, working under your registered manager and alongside your team, so children stay in registered, inspected provision rather than being moved.

Rates

Clinical support	Per hour, excl. VAT
Registered Mental Health Nurse / RNLD / CAMHS clinician	£58.64
Bank holiday rate	£87.96

Minimum shift 12 hours. Available 24/7 and at the ratio required. Charged on hours actually worked. VAT in addition at the standard rate. Workers engaged through a compliant umbrella arrangement, SafeRec accredited. Any engagement is set out in a written quote agreed before we start.

Have us as your specialist clinical option before you need it.
